

SOCIAL MEDIA ADVERTISING

Social Media is an important way to get your Why out to the world and bring customers to you. Paid advertising builds that audience beyond those who already follow you. We offer various pricing models that allow you to start small and go big over time. Every Small Business deserves a great online presence - together we can get you there!

PRICING	\$250/mo	\$375/mo	\$500/mo	\$650/mo

WE START WITH WHY

Why do you do what you do?

These are the questions that you must have answers for. People buy WHY you do something. And we believe in sharing that Why with the world. So let's show your customers WHY they should come to you for their meal.

Working with Level Up as a team will help build your brand, get your food out there, front and centre, in a professional clear way.

Our advertising packages allow you to scale based on needs of your business. The above pricing does not include the paid placing cost on your desired social platform. This should be a budget that is set monthly. We will help you monitor the ads and shift your spending from ad to ad depending on its performance.

We will work diligently to ensure the best ads are out there in front of your potential customers & provide you with campaign end results.

Once you select a package, we can discuss the final budget you would like to put into place for the paid advertising as well as your desired audience for the best impact.
